

# OpenMP Tools WG Outbrief

## Agenda

- State of the implementation
  - OMPT as of OpenMP TR6 (Nov 2017) merged into LLVM runtime
  - RWTH Aachen working on TR7 compliant implementation (preview available)
- Dependency events for doacross loops (Issue 147)  
<https://github.com/OpenMPToolsInterface/OpenMP-4.5-spec/issues/147>
  - Missed a dependency case, trying to add as part of QC phase
  - Rename of one callback suggested
    - `ompt_callback_task_dependences` -> `ompt_callback_dependencies`
- Language and Glossary clarifications
  - When is a tool/interface active/pending/inactive

# OMPT Initialization Workflow
